

# FREE TEACHER WORKSHOP

## LAMP: The Search for Lunar Water

Saturday, June 27, 2009

Especially for 6<sup>th</sup>–12<sup>th</sup> grade teachers

"Far Side of the Moon," image courtesy of NASA  
<http://www.nasaimages.org/luna>

Join Museum scientists and educators for a day of lunar exploration! Incorporate the use of science notebooks with activities related to the Lunar Reconnaissance Orbiter mission and the search for water on the moon. This workshop will present Museum and classroom activities designed to help students explore light, identify chemical signatures, and participate in the search for lunar water. *Sponsored by Southwest Research Institute.*

0.5 graduate-level credit, recertification credit available through Colorado School of Mines for \$25

### The workshop includes

- An opportunity to improve your skills or learn to use science notebooks in your middle and high school classrooms.
- Hands-on activities, free *Search for Lunar Water* DVD and lesson plan CD, and much more
- Talks by experts in the field of space exploration, including NASA guest speaker
- Time to explore the *Space Odyssey* exhibition
- A chance to investigate the moon's habitability and sustainable resources

Meets Colorado Model Content Standards—Science: 3, 4, and 5
